

Program Specific Outcome

MSc. Chemistry

Program outcome

- To understand the advanced facts and concepts in chemistry
- To apply the principles of chemistry
- To develop research aptitude in chemistry
- To be able to work in pure inter-disciplinary and multi-disciplinary areas of chemistry
- To familiarize with emerging areas of chemistry
- To develop the skills in the proper handling and the instruments and chemicals
- To Familiarize with the different processes used in industries and their applications
- To develop an ecofriendly attitude by creating a sense of environmental awareness
