Career Counselling by Department of Psychology

The Department of Psychology is providing individual career counselling to interested final year degree students of our college. The screening is done using David's Battery of Differential Ability Test (DBDA). The DBDA is a standardized procedure for objectively measuring what a person is able to do at the time he/she is being assessed. Under the conditions of assessment included in this concept is the realization that individual behavior including mental processes, is neither consistent nor stable. Abilities like Verbal, Numerical, Clerical, Spatial, Closure, Reasoning, Mechanical and Psychomotor were measured using this test.

The purpose of the test was to make sure that each student has selected a course which is based on their aptitude and to choose a career according to this. A detailed report of the test was given to each student. With reference to the test scores, Individual career counselling is provided to the students by the faculties of the Department of Psychology on every Tuesday, Wednesday and Thursday from 2.30pm – 3.15pm. In the year 2016 – 2017, the programme was started on 16th August 2016. 376 students has undergone career counselling. The details of each department is as follows.
