

PAPER PRESENTATIONS (2021-22)

No:	Name of the Faculty	Topic	Seminar	Venue	Date	Type International /National/Re gional/state/ college
1.	Dr.Meera C R	Antioxidant and geno-protective activities of the polysaccharides isolated from the edible mushroom <i>Pleurotus sajor- caju</i>	International e-conference on Bioengineering for Health & Environment-ICBHE 2021	Sathyabama Institute of Science and Technology, India and MAHSA University, Malaysia	16th and 17th December 2021.	International
2.	Dr.Dhanya KC	Microbial, Enzymatic and Biochemical Profiles and alcohol generation during Ayurvedic Fermentation: Studies on Aravindasava	International e-conference on Bioengineering for Health & Environment-ICBHE 2021	Sathyabama Institute of Science and Technology, India and MAHSA	16th and 17th December 2021.	International

				University, Malaysia		
3.	Dr.Mabel Merlen Jacob	Pectin From Citrus Peels As A Potential Enzyme Inducer And Prebiotic	International e-conference on Bioengineering for Health & Environment-ICBHE 2021	Sathyabama Institute of Science and Technology, India and MAHSA University, Malaysia	16th and 17th December 2021.	International
4.	Elizabeth P Thomas	Study on the development of functional food using pseudo-stem and screening of its organoleptic characteristics.	International e-conference on Bioengineering for Health & Environment-ICBHE 2021	Sathyabama Institute of Science and Technology, India and MAHSA University, Malaysia	16th and 17th December 2021.	International
5.	Ruveena T N	Investigation of Potential Antimicrobial Activity of Silver nanoparticles synthesized by	International e-conference on Bioengineering for Health & Environment-ICBHE 2021	Sathyabama Institute of Science and Technology,	16th and 17th	International

		Murraya koenigii and Cocos nucifera.		India and MAHSA University, Malaysia	December 2021.	
6.	Dr.Greeshma P V	<i>Antioxidant and anti-inflammatory activities of fruiting bodies of an edible mushroom - Pleurotus cystidiosus</i>	International e-conference on Bioengineering for Health & Environment-ICBHE 2021	Sathyabama Institute of Science and Technology, India and MAHSA University, Malaysia	16th and 17th December 2021.	International
7.	Neenu A Santhosh	Tumour suppression and antiinflammatory activity of an endophytic bacteria Brevundimonas vesicularis JAP	International virtual conference on Biological innovations and computational exploration for pandemic challenges (BICPAC'22)	Department of Biotechnology and Bioinformatics, Bishop Heber College (Autonomous), Tiruchirappalli.	24th and 25th February, 2022	International
8.	Whylgreen Jose	Identification of microflora and a study on water quality parameters of Puzhakkal River Thrissur (Dist.) Kerala	International virtual conference on Biological innovations and computational exploration for	Department of Biotechnology and Bioinformatics, Bishop Heber	24th and 25th February, 2022	International

			pandemic challenges (BICPAC'22)	College (Autonomous), Tiruchirappalli.		
9.	Dr. Anu P.A.	Identification of Anti-inflammatory molecules with inhibitory potential on TNF-alpha and Interleukins.	International conference on Environmental, Agricultural, Chemical and Biological Sciences	Voice of Indian Concern for the Environment.	22, 23 - 26 January 2022	International
1 0	Dr. Anu P.A.	Bioactive molecules from <i>E. scaber</i> with inhibitory effect on pro-inflammatory molecules.	National Seminar on Biodiversity Conservation and Ecosystem Restoration.	Biodiversity club, Department of Botany, Vimala College, Thrissur	10th December 2021	National
1 1 .	Tisha Liza Tomy	Microbial communities - a study and identification of microorganism from domestic kitchen scrubber	National Seminar on Biodiversity Conservation and Ecosystem Restoration.	Biodiversity club, Department of Botany, Vimala College, Thrissur	10th December 2021	National
