webinar on "How to begin a cyber-security career & secure yourself from online threats"

On 29th October 2021 at 9.30am, the Department of vocational studies B.Voc Software development conducted a webinar on "How to begin a cyber-security career & secure yourself from online threats". The class was conducted by Mr. Sachin Jose, Cybersecurity Instructor Red Team Hacker Academy. The class focused on providing awareness about online threats & hacking and also explained about how to avoid being hacked. The session went through all the topics we need to know about security and it was well presented.

By the end of the session, the students got awareness about how to avoid mistakes and being hacked, how to secure yourself from outside threats and also this is a good career option for the one who are interested in the cyber world. The class winded up at 11.30 am.
