

Changing climate and Ozone Chemistry

19-09-2018

Organized by: Department of Chemistry

In connection with ozone day celebration, the Department of Chemistry organized a seminar Changing climate and Ozone Chemistry on 19th September 2018. It was inaugurated by Sr. Dr. Magie Jose, Principal, St. Mary's College. The first talk was on the topic Warming Earth, Changing Climate and highlighted the importance of conservation measures for protecting the environment with special reference to ozone. This was followed by a thematic film – *Home* which highlighted the importance of earth. The second talk of the day introduced ozone chemistry to students and emphasized the role chemists can play in mitigating and solving problems of the environment.

List of Resource Persons:

1. Dr. Vijay Kumar P, Project Scientist, Department of Atmospheric Science, CUSAT
2. Dr. Renjith S, Scientist B, RGCBS-SCTIMST, Trivandrum

Seminar on Changing Climate & Ozone Chemistry

Wednesday 19th September 2018

10.00am-11.30am: Invited Talk

Warming Earth & Changing Climate

Dr. Vijay Kumar P

Project Scientist

Department of Atmospheric Science

CUSAT

11.30-12.30 pm: Film Show – **Home** (Thematic film)

12.30-01.30 pm: Lunch

02.00-03.30 pm: Invited Talk

Ozone Chemistry

Dr. Renjith S

Scientist B, SCTIMST, Trivandrum

03.30-04.30 pm: Cultural Programme & Valedictory Function
