

International Workshop on Biotechnological Techniques

3/1/2019

Department of Biotechnology in collaboration with MCAR

An International Workshop on Biotechnological Techniques was conducted by Department of Biotechnology in collaboration with MCAR on 3/1/2019. The resource person for the session was Smt. Tisha Liza Tomy, Assistant Professor, Dept. Of Biotechnology, St. Mary's College, Thrissur. The major area taken was Plant Biotechnology with more aspects on the theoretical and also practical experience was delivered. Plant Tissue Culture is a collection of techniques used to maintain or grow plant cells, tissues or organs under sterile conditions on a nutrient culture medium of known composition. Plant tissue culture is widely used to produce clones of a plant in a method known as micropropagation.
